I wanted to write and thank you for the great customer service that you have provided. After switching to message communications, I found that there was a feature missing that I needed. You were able to add the new feature quickly and I really appreciate it!

Over the past couple years, I have tested every voice broadcasting solution that I could find. Message communications not only has the lowest prices around, but I have found your user interface to be very intuitive and easy to use. And your technology and customer service has gone beyond my expectations.

Thanks,
